CONFIDENT ABOUT THE FUTURE OF OUR BUSINESS
Certain statements in this report constitute forward looking statements that are neither reported financial results nor other historical information. They include but are not limited to statements that are predictions of or indicate future earnings, savings, synergies, events, trends, plans or objectives. Such forward looking statements may or may not take into account and may or may not be affected by known and unknown risks, uncertainties and other important factors that could cause the actual results, performance or achievements of the Company to be materially different from the future results, performance or achievements expressed or implied by such forward looking statements. Such risks, uncertainties and other important factors include among others: economic, business and political conditions in South Africa; decreases in the market price of commodities; hazards associated with underground and surface mining; labour disruptions; changes in government regulations, particularly environmental regulations; changes in exchange rates; currency devaluations; inflation and other macro-economic factors; and the impact of the AIDS crisis in South Africa. These forward looking statements speak only as of the date of publication of these pages. The Company undertakes no obligation to update publicly or release any revisions to these forward looking statements to reflect events or circumstances after the date of publication of these pages or to reflect the occurrence of unanticipated events.
(1) Assets held through ARM Mining Consortium’s effective interest of 41.5%, the balance held by local communities.
(2) ARM shareholding in Two Rivers will reduce to 51% once the transfer of Kalkfontein portions 4, 5 and 6 and Tweefontein prospecting rights has been effected.
(3) Platinum Australia earned 12% ownership on completion and approval of the prefeasibility study. The transfer of this ownership is awaiting approval from the Department of Mineral Resources. Platinum Australia will earn up to 49% on completion of a bankable feasibility study. In the event that the JV acquires Anglo American’s 10%, Platinum Australia has the right to acquire 49% of the acquired 10%.
(4) Konkola North is subject to a buy-in right of up to 20% (5% free-carried interest) by state-owned ZCCM Investment Holdings plc.
(5) ARM Exploration is involved in identifying and assessing exploration and mineral business opportunities in sub-Saharan Africa.
(6) Mwambashi prospecting licence relinquished and certain exploration licences incorporated into the Konkola North mining licence.

On mine cash costs

**ARM Ferrous**

Accelerated ramp-up of the Khumani Project together with production losses due to higher than normal summer rainfall resulted in increased costs.

**Approximate on-mine cash cost split**

- Electricity: 8%
- Labour: 20%
- Consumables: 31%
- Other: 44%

**ARM Platinum**

Nkomati Mine unit cash costs increase due to lower than expected recoveries as the Nkomati Large Scale Expansion ramps up.

**Approximate on-mine cash cost split**

- Electricity: 6%
- Labour: 49%
- Consumables: 31%
- Other: 14%

**ARM Coal**

- Capitalisation of costs was terminated as GGV reached steady state.
- PCB costs were impacted by excessive rain, and delays in the transitioning from underground mining to opencast mining.

**Approximate on-mine cash cost split**

- Electricity: 2%
- Labour: 47%
- Consumables: 32%
- Other: 19%

ARM has delivered significant growth in the preceding 5 years.

Aggressive growth continues. ARM plans to spend R10 billion (on an attributable basis) on capital expenditure over the next three years.

Future growth is supported by a strong financial position that will allow ARM to fund its growth.

We are confident about long-term future of the commodities we mine.
